

Zone acoustic boxes are an alternative to conference rooms and meeting rooms. Comfortable space ensures privacy of conversations and work in silence.

Zone Acoustic Boxes

...The right combination of colours materials and shapes has a positive influence on the user's mood. Wooden furniture elements warm visually up and emphasise the friendly character of the workplace.

Wooden

... The desk that allows you to adjust the height of thee desk top to a particular type of work is answer to the changing nature of workplaces.

IQ

Coworking tables are not only a solution for hot desking, but also an ideal piece of furniture for task groups.

Harmony, balance and minimalism are timeless, and the variety of colors and many configuration options have a chance to hit what you need here and now.

Balance

A simple geometric form - a circle or a circle segment - allows creating abstract patterns.

Circle Line

The „tamed“ geometry with its rounded corners, soft forms and intense colours refers to the 1960s style.

60's

Shapes refer to the architecture and rhythm of the big city - blocks of flats, skyscrapers, stairs, pedestrian crossings, and by their repetitiveness, they create interesting optical illusion.

City

Numerous configurations of embossed panels allow for the play of light and color, and their spatial character will give the interior dynamics.

Embossed Panels

Openwork cut-outs give the panels an effect of lightness and delicacy of form. Decorative, semi-transparent elements perfectly divide the space without overwhelming the interior.

Hanging Panels
